**Information on Escalation of MyAurion requests:**

- If the supervisor’s position is vacant, the Leave request automatically escalates to the actual supervisor’s supervisor.
- The Leave request will escalate where the supervisor is on leave for a period of greater than 5 days and no-one is acting in the supervisor’s position. Day 1 starts on the date the TK form is submitted.
- Leave prior to the request submission does not contribute to ‘escalation of greater than 5 days’.
- Weekends and Public Holidays do not contribute to ‘escalation of greater than 5 days’.
- Where there is leave that is consecutive but not one block of leave, no escalation of greater than 5 days occurs unless, the first block of leave is greater than 5 days on submission of the Leave request.
- If your supervisor is away and another staff member is acting in that position the Leave request will be sent to the staff member acting in your supervisor’s position. (Refer to examples in this document)

### Multiple Placement Holders

For multiple placement holders, you will have leave balances recorded against each placement. If you are applying for leave and your absence covers more than one placement, a leave request must be submitted for each placement affected. This is because MyAurion allocates a separate employee number for each placement you hold with the University.

Before applying for leave, you should make note of the work pattern recorded for each of your placements to ensure your leave request is correctly distributed across each placement.

To locate the work pattern recorded for each placement, complete the following steps:

1. Click the Person Placement drop-down list provided below the menu bar and select the required placement.
2. From the MyAurion tab, click the Job button to access the grids in the Job summary panel on the left-hand side of the Job portal.
3. From the Current Job grid, click the Expand icon ( ) and select the record listed. The Current Job Details detail panel displays on the right-hand side of the Job portal.
4. Scroll to the bottom of this panel to view the Work Pattern for the selected placement.
The following is an example of a work pattern for a part-time employee.

### Processing Examples

The following processing examples illustrate how different work patterns affect the way Single and Part Day leave requests are submitted.

#### Example Work Pattern 1:

<table>
<thead>
<tr>
<th>Employee No.</th>
<th>Work Pattern</th>
</tr>
</thead>
<tbody>
<tr>
<td>1234567</td>
<td>Mon 4:00, Tue 4:00, Wed 4:00, Thur 4:00, Fri 4:00</td>
</tr>
<tr>
<td>9876543</td>
<td>Mon 3:15, Tue 3:15, Wed 3:15, Thur 3:15, Fri 3:15</td>
</tr>
</tbody>
</table>

In the above example, the hours against each placement are the same each weekday. If a full day of leave is taken on the Monday, leave should be applied for as follows:

- Employee No. 1234567 – a SINGLE FULL DAY of leave is applied for (that is, 4:00 hours)
- Employee No. 9876543 – a SINGLE FULL DAY of leave is applied for (that is, 3:15 hours)

**Note:** In this instance the SINGLE FULL DAY option is required, as you are taking the equivalent of a full day of leave from each placement. However, if only two hours is taken on the Monday, a PART DAY leave request should be submitted against the relevant employee number.
Example Work Pattern 2:

<table>
<thead>
<tr>
<th>Employee No.</th>
<th>Work Pattern</th>
</tr>
</thead>
<tbody>
<tr>
<td>1234567</td>
<td>Mon 7:15</td>
</tr>
<tr>
<td></td>
<td>Tue 7:15</td>
</tr>
<tr>
<td></td>
<td>Wed 7:15</td>
</tr>
<tr>
<td></td>
<td>Thur 7:15</td>
</tr>
<tr>
<td></td>
<td>Fri 7:15</td>
</tr>
<tr>
<td>9876543</td>
<td>Mon 7:15</td>
</tr>
<tr>
<td></td>
<td>Tue 7:15</td>
</tr>
</tbody>
</table>

In the above example, the employee does not work Monday to Friday in each placement. If a full day of leave is taken on the Monday, leave should be applied for as follows:

Employee No. 1234567 – a SINGLE FULL DAY of leave is applied for (that is, 7:15 hours)

**Note:** In this instance, the leave balance for the second employee number is not impacted.
